

Crowe UK is a national accounting, tax and assurance firm that boasts a tradition of advising clients for over 175 years.

Today, it's a business totalling 1500 people including over 100 partners, across the country. As a committed training provider, they take on over 100 new trainees per year, from all backgrounds to train the accountants and tax advisers of tomorrow.

A traditional "partnership" unlike many of its competitors, remaining proudly independent; and like many of its clients, "owner managed".

Their clients range from individual "private clients", through small and medium sized, family and owner managed, businesses; to businesses listed on alternative investment markets, (AIM) professional practices, (such as lawyers, surveyors and even other accountants!) and charity and other 'not for profit' businesses.

As well as being renowned for excellence in compliance with regulatory requirements for clients, they regularly advise on many other matters, such as

Vat and excise duty matters (including the new CBAM regulations).

Personal and business strategy and profit improvement; (including personal and business coaching and mentoring)

Succession planning

Business purchase and sale, restructuring and finance raising

Tax efficient profit extraction and employee reward/incentives

Trust, estate and private wealth planning

Reorganisation, reconstruction and offshoring

Tax planning

Innovation tax reliefs (R&D and patent box)
